

Enhance knowledge and develop the skills and confidence to take on the role of an effective and efficient construction manager with ARU's Construction Site Management Degree Apprenticeship. Study for an honour's degree in construction management whilst working, with no tuition fees.

The Construction Management Degree Apprenticeship is ideal if passionate about the built environment and wish to play a leading role in the delivery of construction projects. The apprenticeship gives the support, experience, skills and knowledge to play a key role in all aspects of construction management and lay the foundations for an exciting career path.

Construction site managers are tasked with ensuring that construction projects are completed safely, within agreed timescales and on budget. This includes ensuring safe systems of work are in place and adhered to by all staff and operatives, cost control, time management, minimising the impact on the environment and local community and that projects meet the required specification and quality demanded by the client.

Degree apprenticeships are fully funded by employers and the Government. They are also work-based so employees do not have to pay fees to improve their skills, whilst delivering impact in the workplace as they learn. Entry criteria applies.

Delivery & Assessment

At least 20% of your contracted working hours will be classed as 'off-the-job'. This time will be dedicated to developing the knowledge and skills needed to meet the requirements of the apprenticeship, and therefore is not part of your usual work duties. OTJ learning will be delivered through University-led learning sessions and activities, and practical learning experiences in your usual work setting. This Apprenticeship is delivered day release basis at Chelmsford campus (and Peterborough from 2024).

Assessment is at the end of each module undertaken (on-programme assessments) which will contribute towards the final award of the qualification. End Point Assessment takes place when all on-programme assessments have been successfully passed. The EPA for this apprenticeship is independently assessed.

Upon successful completion of the apprenticeship, you will have a BSc (Hons) degree in Construction Management and a minimum of 3 years relevant work experience. The skills, knowledge and experience you develop during the course will prepare you for roles such as Construction Site Manager, Assistant Construction Site Manager, Site Manager, Sub Agent, Assistant Site Manager or Construction Planner.

For full information and introduction to the team at ARU contact SEATS. We can support your business in comparing this apprenticeship to others and making the best choice for your business and employees' needs.
